

# Stonewall Train the Trainer

for primary  
schools

Equipping staff to tackle  
homophobic, biphobic and  
transphobic bullying in  
primary schools

Homophobic, biphobic and transphobic (HBT) bullying is reported to occur in primary schools. **Almost half** of primary school teachers say pupils in their school experience homophobic bullying and **seven in ten** hear homophobic language – phrases like ‘that’s so gay’ – from pupils. **Nine in ten** teachers say they want to tackle the problem, but lack the training or support to do so. The course is also about ways to make schools more inclusive places for the increasing numbers of children who have parents or guardians who are openly LGBT.

Stonewall’s **Train the Trainer** courses give pastoral, anti-bullying and PSHE leads the knowledge, tools and confidence to train colleagues on tackling HBT bullying and celebrating difference, as well as meeting the requirement of the new **Ofsted inspection framework**. Participating schools become members of Stonewall’s **School Champions programme**.
